

The 2021 MSNA Service Project is for [Red Lake Rosie's Rescue](#), on the Red Lake and White Earth Reservations of northern Minnesota. Red Lake Rosie's provides a shelter for homeless, unwanted and injured animals and transfers them to shelters and rescues statewide and regionally for adoption. Humane Education is provided to clinic clients and to children in the Red Lake Elementary School. A food shelf provides basic food for those animals who have no other source of food. Major medical and neuter/spay costs are the main expenses and 88% of their budget is spent on direct animal care. 92% of the labor is volunteer.

You can help out by bringing your donations to the conference and dropping them off at the registration desk. We will then get these donations to Rosie's Rescue!

Supplies needed:
